

CHILDREN'S RIGHTS UPPERMOST IN STATE

Hundred Schools Closed in Oregon Last Year Due to Teacher Shortage.

Every community needs teachers. Every locality are many persons who could make good teachers but who do not enter the profession.

Also in every community there are persons who are planning to leave or go elsewhere to teach or to enter the profession. Why? Salary is low, but mostly because the teacher's profession is without honor in our own country.

Making the home schools safe for the talent will help to solve the teacher shortage. There must be good salaries, of course. Teachers teach because they need money. There must be some protection against the unfair system. It is an old story in many communities for a new superintendent and his assistants to find a way to get their hands on the local teachers, or to belittle them so that they must resign in self-respect.

Does the community know about it? Do the parents of each school know the material of the teaching force? If they are an up-to-date, accomplished, efficient teacher, will they encourage her salary increases and back her against unfair discrimination? How many good teachers have left the community, and why? That will tell the story. How many young people who would make fine teachers are doing something else instead?

Keep the home fires burning until the lumbering drops and all the business which is driving home teaching talent away from home is turned up, and then see how rapidly the teacher shortage becomes a thing of the past.

Oregon can remedy her condition by voting "Yes" for the 2-mill Elementary School Bill, popularly known as the Children's Bill.

Many people have been urging the farmer on to greater production this season as a means of reducing the cost of living. And there they stop. Apparently they do not take into consideration the fact that the food speculator is in reality the one who is robbing the poor and fleecing the rich in order to line his own pockets. It is he who has done most to force up the price of foodstuffs to almost prohibitive heights.

What we need is an old time curb that is big enough and cruel enough to bring the speculators to their knees and keep them there.

OVERALLS APPEAR IN CONGRESS HALLS

The "Overall" idea has hit Washington and is being supported by members of Congress. It was in the south that the "Overall Clubs" first were organized, town clubs resolved to wear overalls, saving the high cost of clothes to come down. In this picture is Congressman Upshaw of Georgia and Senator Dial of South Carolina who have taken vows to wear overalls, as shown, until H. C. comes down.

IT'S FUN TO KEEP HOUSE

It's just fun to live, and house-keeping is no drudgery to one who has had the practical house training and course in house administration at O. A. C. At least that is what Mrs. S. B. Romans, a graduate of 1919, writes to her instructor, Miss A. Grace Johnson. The way she keeps the house looking—a big one of eight rooms fixed over—makes people inquire about her maid, but she has none. She does all her own work, including the family washing. And likes it, too.

Yes, the subject furnishes quite a little food for thought—for one thought in particular, that America is not such a bad place after all.

The country becomes stirred from one end to the other. Business suffers, jealousies are rampant, and life long enemies are created. That is Europe.

Now that woman has been given the right to vote in many states, mere man is confronted with the problem of inducing her to vote.

It pays to take time by the forelock. Otherwise it may get you by the neck.

"Grandest in the World" He Says

J. T. Hickey Praises Tanlac Because of His Wife's Remarkable Recovery

"What I have seen Tanlac do for my wife convinces me that it is the grandest medicine in the world," was the statement made recently by J. T. Hickey, a well-known employee of Taylo Mill, who lives at 4623 Chicago St., Seattle, Wash., in telling of his wife's recovery since taking Tanlac.

"My wife has been in bad health for over a year troubled with a bad case of indigestion nervousness, headaches and rheumatism," continued Mr. Hickey. "She hardly ever cared whether she ate anything or not and when she did force her self to take a few bites it would sour and cause her to have cramping pains. Gas would bloat her up so bad that it pressed up against her lungs and almost cut her breath off entirely.

Her kidneys were badly disordered and all the time she was complaining of a pain in the small of her back. She had rheumatism in her sides and through her back that gave her no end of trouble and made it hard for her to get about the house. She was troubled with severe headaches and dizzy spells and her nerves were so upset that any little unexpected noise would excite her. At night she was so restless she could get but little sleep and as a result of all her suffering she was in a miserable run down condition.

"Our daughter had taken Tanlac and it had helped her so remarkably that my wife began taking it. It helped her right from the start and it looked like it was no time before she was able to eat anything she wanted and digest it without the least bit of trouble. The rheumatism disappeared entirely and the headaches and dizzy spells are a thing of the past. Her kidneys are in good condition and the pains in her back have about gone and the nervousness has all left her. She sleeps sound at night and gets up feeling so fine every morning that it is an easy thing for her to do her housework. She has been built up in every way and is so much stronger that she looks like a different

woman."

Tanlac is sold in Burns by Reed Trading Co.

The Whole Secret of A Better Tire

Simply a Matter of the Maker's Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.
